### Dental School Preparation Course

Discover dentistry by acquiring hands-on experience in cavity preparation, crown preparation, diagnostic impressions, cast fabrication, diagnostic wax-up, and bleaching tray fabrication.

## Dental School Preparation Course

### Register online

The Dental School Preparation Course offered at the University Of Minnesota School Of Dentistry is a 20-hour intensive program designed to prepare students for the field of Dentistry. The program consists of a series of hands-on preclinical exercises and laboratory procedures as well as lectures given by university faculty members, experts in their fields of teaching, research and practice. Additionally, students will have the opportunity to work with DentSim, the multi-million dollar advanced simulation technology and most advanced pre-clinical training tool to date. This intensive weekend course is valuable for students seeking a better understanding of dental school and the profession.

\*Total enrollment for this course may vary from 26 to 39 participants. Each course may have limitations for right-handed and left-handed participants due to equipment availability. Registration is offered on a first-come, first-serve basis.
